

Partnering with the Community	Research	Make Access to Testing and Treatment Part of Preventative Care (seamless, infused into all services)	Campaigning for Community Involvement	Education! Education! Education! And Training
More involvement from the health department (silent now)	Research into meds and treatment	Easy healthcare access	Diverse support groups for at-risk and PLWH	More education focused on HIV myths
Involve CBOs regardless of funding		Increase testing	Campaign like Live Out Loud campaign (short videos of people in recovery)	Increased education to maintain prevention efforts (risk is still there)
Include faith leaders in harm and stigma reduction		Med compliance: Rewards for good behavior, contingency management	Daily, weekly, monthly forums/mentors for PLWH who want privacy	Outreach first - syringe exchange, condoms, substance use
Minority-owned business outreach		Incentivized testing	More peer navigators	Stigma reduction like Connecticut Communities of Addition Recovery does, but for HIV
		Treating and diagnosing in-house. Train staff here or medical staff	Peer support modeled on recovery support model	Increase transparency around harm reduction
		Access to harm reduction (PrEP, condoms, syringe exchange)	Include faith leaders in harm and stigma reduction	Education in middle and high schools
		Increase transportation to appointments	Contingency management for med compliance	Education in Universities and Colleges
		Easier access to services - minorities and rural - targeted efforts	HIV support groups - health and wellness spin to get people to come	General education to end stigma
		Universal opt-out testing		Training health professionals about mental health and addiction
		Increase in services for people with public insurance		PrEP is overshadowing the HIV message
		Create service campuses with medical, detox, housing, etc. all in one place		Reach non-minorities about risk (I'm not Black)
		Increase housing availability for parents/families with children		Reduce risky behavior
				HIV support groups - health and wellness spin to get people to come
