

Messaging	Prioritizing a cure	Normalizing/Routinizing HIV Services	Health Care Access	Organizational Structure/Administrative Policy	Legislative Policy Change	Education	Community Engagement
Bringing messages to people (radio, Hulu, etc.)	Virus can be cured - You're getting a cure, not a treatment	Opt-out testing	Increase access to PrEP - free programs, same-day PrEP everywhere	Hire more HIV+ individuals - pay them what they're worth	Revise laws that restrict sex	Sex education more standardized & earlier	Broaden collaborations outside of HIV (referral networks)
Porn industry to provide sex education	Political will/desire to find a cure (like Covid)	Routine or universal opt-out HIV testing	Having Universal Healthcare will reduce barriers and stigma	Much more transparency from Admin	Mandatory comprehensive health screening	Universal age appropriate sexual health education	Culturally specific outreach to highly impacted communities (networks)
Enhanced sexual education (starting in middle schools)		Incentivize providers to test for HIV	Promote PrEP to providers and consumers (access)	Fostering leadership opportunities for PLWH	Legalize everyday purchasing of insertive condoms	Comprehensive sex education	Getting more celebrities/influencers involved (not just on World AIDS Day)
Increased anti-stigma messaging: status inclusive		Normalize/routinize HIV testing	People understand their options for contraceptives and protection	Uniform data collection and reporting RW and non-RW (among providers)	Uniform data collection and reporting, RW and non-RW	Promote sex health therapists/therapy	Fostering leadership opportunities for PLWH

Status-neutral approach to messaging		Equitable care across the HIV continuum				Educate more HIV+ individuals about PrEP	LGBTQ support spaces in rural communities
Culturally specific outreach to highly impacted communities (messaging)		Transparency of medical records of the person				Educate PrEP to providers and consumers	Local informed organized groups and community
Getting more celebrities/influencers involved (not just World AIDS Day)		Drop-in centers with services inside				Comprehensive, culturally competent, age appropriate sex education	
		Uniform rapid start entry to care					
		Tele-PrEP					
		HIV cure or vaccine is free or covered, like Covid
